Ginger Ring

Ginger Ring is an award-winning author with a weakness for cheese, dark chocolate, and the Green Bay Packers. She loves reading, cuddly felines, and has a quirky sense of humor. When Ginger isn't tracking down old gangster haunts, or stopping at historical sites, you can find her on the backwaters of the Mississippi River fishing with her husband.

She enjoys movies and hockey and makes her home in Cody, Wyoming.

AL Long

Award-winning Author of the Independent Press Award, NIEA, and Book Excellence Award.

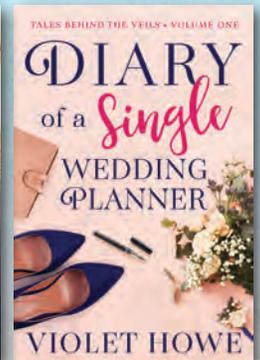

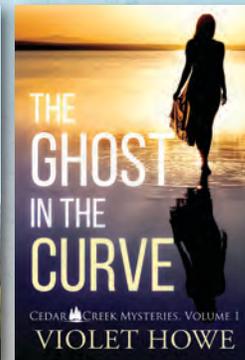

Some would call me a little naughty, but I see myself as a writer of spicy thoughts. There is nothing more rewarding than putting your thoughts down in words and sharing them. I believe that every life deserves a little bit of romance; a little spice doesn't hurt either. When I am not writing, I enjoy the company of good friends and a delicious glass of red wine.

Violet Howe

Violet Howe writes books about heroines who are at a crossroads in life and facing obstacles they need to overcome. Her stories all have romance and the pursuit of a happily-ever-after, but they also explore relationships with family and friends. Depending on which of her series you choose, the books may have a mystery, an element of suspense, or a ghost or two.

Violet lives in Florida with her husband and their adorable but spoiled dogs. When she's not writing, Violet is usually watching movies, reading, or planning her next travel adventure. She believes in love conquering all, humor being essential to life, and pizza being a necessity.

Tricia Daniels

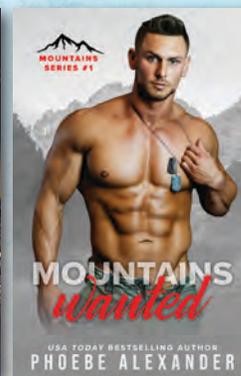

I live in a small town in Southern Ontario, Canada. Love inspires me to write. I'm addicted to the way we connect with fictional characters, feeling their emotions. I love when characters take over the story and plot twists develop that I hadn't planned on the journey to their HEA. Mostly, I love how two imperfect characters can love each other perfectly. My reward is experiencing through them, a love so deep, that I feel it in my own heart.

Cynthia Woolf

Cynthia Woolf is the award-winning and best-selling author of fifty-six historical western romance books, two short stories, two time-travel historical western romances and two contemporary western romances. She has also published six sci-fi, space opera romances, which she calls westerns in space. Along with these books she has also published four boxed sets of her books.

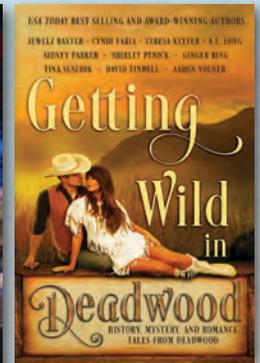

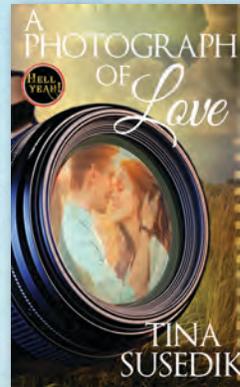

Cynthia loves writing and reading romance. Her first western romance *Tame A Wild Heart*, was inspired by the story her mother told her of meeting Cynthia's father on a ranch in Creede, Colorado. Although *Tame A Wild Heart* takes place in Creede that is the only similarity between the stories. Her father was a cowboy, not a bounty hunter, and her mother was a nursemaid (called a nanny now), not the ranch owner.

Cynthia credits her wonderfully supportive husband Jim and her great critique partners for saving her sanity and allowing her to explore her creativity.

Tina Susedik

Tina Susedik is an award-winning, Amazon best-selling, multi-published author with books in both fiction and non-fiction, including history, children's, military books, and romances. Her favorite is writing romantic suspense/mystery where her characters live happily-ever-after by overcoming their own set of problems. She lives in northwestern Wisconsin where winters are long, summers short, and spring and fall beautiful.

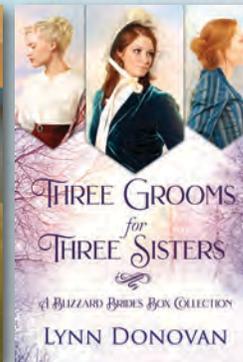

Lynn Donovan

Lynn Donovan is an author, playwright, and director who spends her days chasing after her muses trying to get them to behave long enough to write their stories. The results are numerous novels, multi-author series, anthologies, dramatizations, and short stories.

Lynn is a co-host on a local AM radio show, KRLN 1400, called Write Time Radio where she and her co-host air old-time-radio dramas, narrations, excerpts and poems written by local writers, including herself.

Lynn enjoys reading and writing all kinds of fiction, paranormal, speculative, contemporary romance, and time travel. But you never know what her muses will come up with for a story, so you could see a novel under any given genre. All that can be said is keep your eyes open, because these muses are not sitting still for long!
